***The recognized leader in Board certification of  
oral and maxillofacial surgery and related disciplines***

## **Mission**

The American Board of Oral and Maxillofacial Surgery (ABOMS) ensures that Diplomates meet our standards of training, education, and professionalism through our certification process. As the certifying body in Oral and Maxillofacial Surgery, the ABOMS provides contemporary and innovative programs that promote optimal care and service to the public.

## **Vision**

To be the recognized leader in Board Certification of Oral and Maxillofacial Surgery and related disciplines.

## **Organization**

ABOMS is the certifying Board for the specialty of oral and maxillofacial surgery in the United States and is recognized and approved by the Council on Dental Education of the American Dental Association (CODA).

A committee was authorized at the 1945 annual meeting of the American Society of Oral Surgeons to establish an American Board of Oral Surgery, which would conduct examinations for the certification of specialists in oral surgery. In 1946, the American Board of Oral Surgery was incorporated under the laws of the State of Illinois. During the following year, the American Board of Oral Surgery was approved by the Council on Dental Education of the American Dental Association and was authorized to proceed with the certification of specialists in oral surgery. The American Board of Oral Surgery was renamed the American Board of Oral and Maxillofacial Surgery in 1978 to reflect the scope of the specialty. The name modification was incorporated under the laws of the State of Illinois.

The operation of the American Board of Oral and Maxillofacial Surgery (ABOMS) is entrusted to an eight-member Board of Directors. These Directors are Diplomates of the American Board of Oral and Maxillofacial Surgery and Fellows of the American Association of Oral and Maxillofacial

Surgeons (AAOMS). One Director is elected each year to an eight-year term by the House of Delegates of the AAOMS. An Examination Committee composed of Diplomates of the ABOMS is appointed by the Board of Directors to prepare and conduct the annual certification examination. The Board of Directors and its Examination Committee serve without salary.

## Examinations

The certification process is comprehensive, covering the biological sciences and clinical practice of oral and maxillofacial surgery. The certification process in oral and maxillofacial surgery consists of two examinations:

- Qualifying Examination (QE)
- Oral Certifying Examination (OCE)
  - This is the second examination in our board certification process.
  - Hospital privileges are required upon applying. Please visit [www.aboms.org](http://www.aboms.org) for the OCE handbook for deadlines and more details.

Acceptable ethical and moral standing in the specialty and by review of any data pertaining to such standing may be requested by the Board.

For senior residents interested in the Fast-Track pathway, please see our Fast-Track Qualifying Examination Handbook, found on [www.aboms.org](http://www.aboms.org).

## Education

Applicants for certification by ABOMS must have graduated from a U.S. or Canadian dental school that is recognized by the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA). They must have also completed advanced education in an oral and maxillofacial surgery program that is accredited by the Commission on Dental Accreditation of the American Dental Association.

For applicants interested in the Qualifying Examination, but have not graduated from a CODA approved program, please see our separate handbook for Foreign Trained Applicants on [www.aboms.org](http://www.aboms.org).

## **Licensure**

Applicants must provide evidence of an active dental/medical license from the appropriate authority enabling the individual to practice independently in the specialty of oral and maxillofacial surgery. An individual with limited licensure, which permits practice only under supervision, such as a “resident license” or a “fellowship license,” is not enough to satisfy this requirement.

## **About the Qualifying Examination**

The ABOMS Qualifying Examination (QE) is a secure, valid computer-based examination administered to Board applicants that test their knowledge in central principles of the specialty. The QE is the first step in becoming Board certified and takes place at Prometric Testing Centers.

The examination is made up of 300 questions covering 11 subject areas. There are two sections. The first section is allowed three hours, followed by an optional one-hour break, and the second section is allowed another three hours. After completing the first section, you may not go back to review.

An applicant who applies for the QE as a First Time Applicant is recognized as a Candidate upon application approval. A Candidate who does not take or pass the QE within the two-year period after applying will result in a void status with the Board. See page 7 for more details.

## Timeline

Below is the examination timeline. Please keep in your records. It is the test taker's responsibility to be aware and meet all deadlines. ABOMS goes to great lengths to assist applicants when participating in the certification process. In return, it is requested that individuals seeking Board Certification comply with set requirements and deadlines.
