# Sneak Peak

The screenshot displays the user interface for a diplomate profile. At the top, a navigation bar includes the organization's name and various menu items like Dashboard, Applications, Question Bank, CM, Board/Committee, Resources, and History. The main content area is divided into several sections:

- DIPLOMATE INFORMATION:** Features a profile picture of Dr. Larry Cunningham Jr., his name, PID (21191), and status (Diplomate). It also includes sections for Dues and Renewals, Upcoming Exams, and Applications, with a specific application for the Examination Committee 2020-2021.
- QUICK LINKS:** Provides shortcuts to Update Profile, View My Past Payments, and Store.
- MY BOARD:** Includes a link to the Board of Directors and sections for Upcoming Meetings and Action Items.
- CERTIFICATION MAINTENANCE:** Shows the expiration date (Dec 31, 2023) and a completed Annual Registration - 2019 Renewal.
- Progress Indicators:** Two circular progress charts at the bottom, both at 0%, are highlighted with a red box. They represent 'Article Review - Year 6 - 2019' (0/2) and 'Clinical Cases - Year 6 - 2019' (0/2).

## Diplomate Profiles will:

- Be personalized to your specific certification year. For example, you will not see clinical cases if it's not required;
- Track what you've already completed;
- Save assignments you've already started but have not yet completed;
- Provide you with a letter of CE after completing each assignment successfully.

**Healthcare professionals' views of the enhanced recovery after surgery programme: a qualitative investigation**  
QUESTION / ANSWER  
Enhanced Recovery After Surgery (ERAS) programs have been implemented in the British health care system since 2009. ERAS focus on evidenced based outcomes that improve outcomes as well as recovery, in a more patient centric approach. This study evaluated evidence based outcome measures and facilitating factors associated with the implementation of ERAS protocols.
