***The recognized leader in Board certification of
oral and maxillofacial surgery and related disciplines***

Core Purpose

The mission of the American Board of Oral and Maxillofacial Surgery is to assure the public of safe and optimal care through the development and maintenance of high standards of certification and re-certification of Diplomates in the specialty.

Core Values

- ❖ Patient First
- ❖ Integrity
- ❖ Fair and Valid
- ❖ Relevant
- ❖ Gold Standard of Excellence

Organization

The American Board of Oral and Maxillofacial Surgery (ABOMS) is the certifying Board for the specialty of oral and maxillofacial surgery in the United States and is recognized and approved by the Council on Dental Education of the American Dental Association.

A committee was authorized at the 1945 annual meeting of the American Society of Oral Surgeons to establish an American Board of Oral Surgery, which would conduct examinations for the certification of specialists in oral surgery. In 1946, the American Board of Oral Surgery was incorporated under the laws of the State of Illinois. During the following year, the American Board of Oral Surgery was approved by the Council on Dental Education of the American Dental Association and was authorized to proceed with the certification of specialists in oral surgery. The American Board of Oral Surgery was renamed the American Board of Oral and Maxillofacial Surgery in 1978 to reflect the scope of the specialty. The name modification was incorporated under the laws of the State of Illinois.

The operation of the American Board of Oral and Maxillofacial Surgery is entrusted to an eight-member Board of Directors. These Directors are Diplomates of the American Board of Oral and Maxillofacial Surgery and Fellows of the American Association of Oral and Maxillofacial Surgeons. One Director is elected each year to an eight-year term by the House of Delegates of the American Association of Oral and Maxillofacial Surgeons. An Examination Committee composed of Diplomates of the American Board of Oral and Maxillofacial Surgery is appointed by the Board of Directors to prepare and conduct the annual certification examination. The Board of Directors and its Examination Committee serve without salary.

Examinations

The certification process is comprehensive, covering the biological sciences and clinical practice of oral and maxillofacial surgery. The certification process in oral and maxillofacial surgery consists of two examinations:

- Qualifying Examination (QE)
- Oral Certifying Examination (OCE)

General

Acceptable ethical and moral standing in the specialty and by review of any data pertaining to such standing may be requested by the Board.

Education

Applicants for certification by ABOMS must have graduated from a U.S. or Canadian dental school that is recognized by the Commission on Dental Accreditation (CODA) of the American Dental Association. They must have also completed advanced education in an oral and maxillofacial surgery program that is accredited by the Commission on Dental Accreditation of the American Dental Association.

Licensure

Applicants must provide evidence of an active dental/medical license from the appropriate authority enabling the individual to practice independently in the specialty of oral and maxillofacial surgery. **An individual with limited licensure, which permits practice only under**

supervision, such as a “resident license” or a “fellowship license”, is not enough to satisfy this requirement.

Qualifying Examination (QE)

The ABOMS Qualifying Examination (QE) is a secure, valid computer-based examination administered to Board applicants that test their knowledge in central principles of the specialty. The QE is the first step in becoming Board certified. The examination is made up of 300 questions covering 10 subject areas. There are two sections. The first section is allowed three hours, followed by an optional one-hour break, and the second section is allowed another three hours. After you complete the first section, you may not go back to review. An applicant who does not take or pass the QE within the two-year period will result in a void application.
